Kerry Morris For A Better Tomorrow! [1]

I've known Kerry Morris (and all of his family) for over 20 years so I can say assuredly and confidently that I am extremely pleased to endorse his candidacy and election to the position of Mayor of the City of North Vancouver.

Kerry is intelligent, hardworking, sincere, and forthright in all of his dealings both in personal and business exchanges. If he promises you something he will get it done! Rest assured though, if he cannot provide you with results he will explain that to you as well! You will always get an honest and well-reasoned answer from Kerry......and as the next Mayor of the City of North Vancouver he will work harder than you can imagine on your behalf! Kerry is clearly for the residents of the community, and people like me who have a vested interest in ensuring the City of North Vancouver stays as a liveable, kind, and caring community! I know the City of North Vancouver can be better!!

Kerry was born in North Vancouver and has raised his family here as well. He has the keen business sense that is needed in this strong leadership position yet he will never abuse the support and power given to him by the residents! Like you Kerry believes in this community and he will work to keep this community united! Kerry will make this community better!

As a former Mayor I am only too keenly aware of the difficulties a community leader faces when there is a strong push for change from other political bodies or outside consultants and developers. Kerry can be given your trust because the uncomfortable decisions that sometimes need to be taken will be done with the community interest and input at the forefront and Kerry will always make those decisions based on that input from the community and never from any personal gain.

Let's make sure that North Vancouver City becomes a better community again. Elect Kerry Morris for a community leader that cares about the community! Elect Kerry Morris for a better tomorrow!!!

Barbara Sharp

Former Mayor, City of North Vancouver
