

MORRIS FOR MAYOR

Do you think that a municipal politician should become aligned with a political party?

As a municipal politician, I will advocate for financial contribution from senior levels of government to fund projects within the City and the North Shore.

Did you know that the sewerage utility has applied for federal and provincial funding of \$466M toward the replacement of the Lions Gate Waste Water Treatment Plant (WWTP)? Did you know that support for this contribution remains uncertain?

Having a political affiliation, with any party, creates the real possibility that you may be out of sync with senior levels of government which can put funding support for large community projects in jeopardy.

I have never been associated with any federal or provincial political party. I pledge to remain politically neutral throughout my mayoral mandate. Offending senior levels of government with partisan political rhetoric is counterproductive to the City's goals.
