

"TIME FOR A CHANGE"

Bill Bell -Council Candidate and former four term North Vancouver City Councilor

Dear Kerry Morris,

I wanted to wait until after the last all candidates meeting before I made my final decision regarding who I would support for Mayor of North Vancouver City. After seeing your performance in numerous debates and carefully listening to your vision for the City of North Vancouver, I wholeheartedly support you.

Your desire to see a vibrant City that grows at a responsible pace is one that I share and hold dear. Although we do not agree on some issues, we share common ground on most and I believe those the most important ones.

Ethics, Fiscal responsibility, fixing the transportation system. Our shared belief that taking developer money is wrong. Respecting our residents and voters at all times was a very strong deciding factor in my decision.

I want you to know that this decision was a very difficult one for me as Darrell Mussatto has been a longtime friend and political colleague of mine. After listening to both of you on the campaign trail, it is clearly "Time for a Change at City Hall."

I wish you luck and if the voters agree, it would be a pleasure to serve on council with you as I did with your father Frank Morris during my first term in office in 1987.

Warmest Regards

Bill Bell

Council Candidate

A handwritten signature in black ink that reads "Bill Bell". The signature is stylized and cursive.
