

MORRIS FOR MAYOR

"FOR A BETTER TOMORROW"

Did you know that N. Van City, per capita, has a higher percentage of renters than any other municipality in the Lower Mainland?

Did you know that Metro Vancouver, in 2012, commissioned a report which identified that 6,830 rental units exist in our City, of which 1,553 or 23% are currently targeted for redevelopment? The report identifies that targeted units under attack from developers will rise to 2,754 units or 40% by 2021!

These targeted rental units are occupied by many of the City's most vulnerable residents. Single families, the elderly and fixed income retirees all rely on these units. Should we be throwing these most vulnerable members of our society under the bus for our new friends, the hit-and-run developer, here solely to change the face of our community for personal financial benefit?

I will not support the continuation of this mayoral sponsored behaviour. Residents first must be our credo! Get back to basics, 'Dump Density Darrell'.
